

## ***November Luncheon The Preserve at Ironhorse***

We want to thank Catherine Brister for sponsoring us and Peter for assisting with the set up.

The venue was very receptive with the signage all the way to the Ballroom.

Deirdre Krause, the Executive Vice President, led the meeting in the absence of our President Sonia Foster. Sonia was participating in a Navy League “Congressional Fly-In”. Collectively they met with 210 members of congress. Their message was that Sea Services are in dire need of long term funding.

Our Palm Beach Council is also supporting the youth. We now have 6 youth groups that we are supporting due to the generosity of our Palm Beach Council.

Our guest speaker presented on the Hurricane relief efforts that the Coast Guard Station Lake Worth Inlet Florida performed. Station Lake Worth Inlet was commissioned in 1995 after being relocated from Peanut Island to Rivera Beach, Florida. Station Lake Worth is a multi-Mission Unit which primarily engages in pursuits of non-compliant vessels. There are 44 active duty and 22 reserves attached.

There were many good questions from the audience and we had a very interactive session.
